

A Vision For Sustainable Communities

INNOVATE TO
REGENERATE

The Community Sustainability Hub

Our Vision

To have a healthy, sustainable community across Goulburn Mulwaree.

Our Mission

Starting with the least advantaged, to build a sustainable community that acts together to position us as leaders in responding to the challenges of the changing climate.

The Goulburn Mulwaree Community Sustainability Hub is designed to bring the community and businesses together to take advantage of the opportunities presented by addressing the changing climate head-on.

The Hub will build knowledge and capabilities in businesses; households; and neighbourhoods.

The Hub is designed to help build a circular economy based on agreed objectives and targets, to inform and guide decision making.

Key metrics can be found in ZeroSE's Fact Sheet See:- <https://zerose.space/by-lga-2/>. It is planned to support the above by using the "One Planet Councils' Framework", see opposite.

The Hub is intended to work with other hubs as a network across SE NSW, in particular the "Bega Circular Valley" hub, see:- <https://begacircularvalley.com.au/> and to build on other relevant frameworks and projects.

The delivery of the above objectives is to be assisted by creating a sense of achievement and fun through competitions, an annual Sustainability Fair and conference, to advance Goulburn Mulwaree's reputation.

One Planet Councils' Framework

- Health and Happiness
- Equity and Local Economy
- Culture and Community
- Landuse and Wildlife
- Sustainable Water
