**CONFERENCE
& EXPO**

Friday
16 September 2022

Face to face or online!
Conference runs 9.00am - 4.30pm
Post Conference Drinks 4.30-5.30pm

Most Farmers have the aim of leaving their farm in a better state than when they took over its "Custodianship". Recent extreme weather events, COVID and the war in Ukraine have underlined the considerable urgency of this task. At the same time, the rising cost of fertilisers and other chemical inputs is a threat to farm profitability & to food security.

This conference is about strategies to take your farm on a sustainable and profitable path.

The expo will enable farmers to talk to leaders in the field of landscape sustainability and productivity, plus support groups such as Landcare, Local Land Services, NSW Farmers and to network with very experienced sustainable farmers and those at various stages of their journey. Whilst each farm is different we know that adopting the principles and practices of sustainability and regeneration is a good places to start.

The conference, expo, farm visit & events are the initiative of *Landcare Goulburn Mulwaree*, which is a not for profit organisation. Any conference surplus will be used to progress the cause of sustainable farming and community support.

Sponsored by:

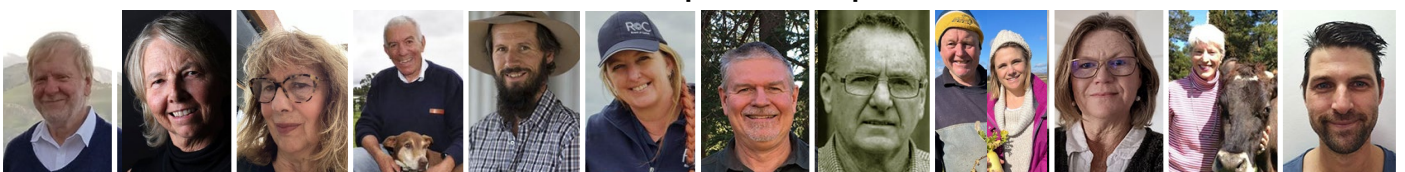

Goulburn Workers Club

Goulburn Soldiers Club

Best Farming Systems

Nutrisoil

The fantastic conference speaker line-up includes:

Walter Jehne
Internationally
known soil
microbiologist

Jenny Bell
Regenerative
Farmer & Artist

Di Dibley
Co-chair ZeroSE
& Environmental
Lawyer

Dr Robert
Favaloro
Farmer &
retired GP

Dan Florance
ANU
Sustainable
Farms Project

Lori Gould
Australian River
Restoration
Centre

Tony Hill
Land to Market
Capital
Consulting

Peter Holding
Farmers for
Climate Action
& Farmer

Craig Hunt,
Farmer | Hannah
McInerney,
Landcare

Nolani McColl
